

YAQZAN ALMAGRIBI

Bekasi, Jawa Barat | [+6287846645106](tel:+6287846645106) | yaqzanal25@gmail.com

[linkedin.com/in/yaqzanalmagribi](https://www.linkedin.com/in/yaqzanalmagribi)

I am a mechatronics engineer with expertise in mechanics, electronics, and informatics. I have 8 months of professional experience working at PT Toyota Motor Manufacturing Indonesia. During my time in university, I was actively involved in various organizational activities, committees, and competitions in the fields of Programmable Logic Controllers (PLC) and the Internet of Things (IoT). My main interests in the development of industrial automation technologies, robotics, and production processes. I am strongly committed to continuous learning, improving my skills, and applying my knowledge to contribute the advancement industrial sector.

SKILLS & COMPETENCY

<i>PLC Programming</i>	<i>Electrical Wiring</i>	<i>SCADA</i>	<i>Process Engineer</i>
<i>Microcontroller</i>	<i>3D Part Designer</i>	<i>Python</i>	<i>Project Engineer</i>
<i>Internet of Things</i>	<i>Mechanical</i>	<i>Microsoft Office</i>	<i>Production Engineer</i>

EDUCATION

Politeknik Astra **2022 - 2025**

Diploma-3 , Mechatronics GPA : 3.93/4.00

- Top GPA and Outstanding Student of the Mechatronics Engineering Program.
- Full Scholarship from Astra.

SMK Telekomunikasi Telesandi Bekasi **2019 - 2022**

Teknik Telekomunikasi

- Ranked 1st in major with an Average Score of 89.01
- Top 5 Finalist in the Technology Innovation Competition by Balitbangda, Bekasi Regency, with a project on Automatic Body Temperature Scanner and Face Mask Detection System.

WORK EXPERIENCE

PT. TOYOTA MOTOR MANUFACTURING INDONESIA **Feb 2025 - July 2025**

Assy & Painting Production Division - Assy & Painting Engineering Service Dept.

- Responsible for designing, developing, and ensuring the continuity of production processes in the assembly and painting lines included technical planning, process improvement and quality control.

Engine Production Sunter Division - Maintenance Dept. **Dec 2024 - Feb 2025**

- Responsible for effective implementation of the three key pillars of maintenance: preventive, predictive, and corrective actions. Problem analysis on issues production line and develop machine connectivity.

PUSAT PENELITIAN TEKNOLOGI DAN KOMUNIKASI ITB **Jan 2021 - March 2021**

Programmer and Electrical Microcontroller IoT

- Successfully developed the Automatic Attendance System using RFID, Automatic Smoke Detector, and Automatic Soil Moisture Monitoring System, for students at SMK Telekomunikasi Telesandi Bekasi.

PROJECT EXPERIENCE

Automatic Supply Material PT-ED Painting Line **March 2025 - July 2025**

PT. Toyota Motor Manufacturing Indonesia

- Successfully develop, designed, planned, and collaborated with the production and maintenance teams to reduce manpower working time and collect actual material data.

Qan Level Up Pokayoke No Clip Roof Outflow in Siller Painting Line **May 2025 - July 2025**

PT. Toyota Motor Manufacturing Indonesia

- Successfully designed and planned a solution based on Pareto problem analysis issues in the Blackout Area of the Painting Line by developing an AI-based Pokayoke system.

Switch Dimmer Pokayoke Based On E-Harigami Trimming 2 Assy Line **Feb 2025 - May 2025**

PT. Toyota Motor Manufacturing Indonesia

- Successfully developed, designed, and programmed a solution to address frequent part installation errors at the switch dimmer trimming post in Assembly Line 2. Collaborated closely with the production team to achieve one voice in problem-solving and implementation.

Qan Level Up Pokayoke No Spray Outflow in Black Out Painting Line **May 2025 - July 2025**

PT. Toyota Motor Manufacturing Indonesia

- Successfully designed and planned a solution based on Pareto problem analysis issues in the Siller Area.

Mesh Wi-fi IoT Integrated Machine Connectivity

December 2024

PT. Toyota Motor Manufacturing Indonesia

- Successfully implemented a 5G Mesh Wi-Fi system on the machining production line of Engine TR Plant 1.

Portable Machine Connectivity IoT Device

January 2024

PT. Toyota Motor Manufacturing Indonesia

- Successfully collected temperature parameter data from machines on the Engine TR production line.

Navigation, Controller and Electrical Autonomous AGV

Sept 2024 - Nov 2024

PT. United Tractors Pandu Engineering

- Successfully developed the AGV controller wiring system, programmed the STM32 microcontroller, and implemented the navigation system using ROS2 for an autonomous AGV.

Electrical Simulator Car

August 2024 - Sept 2024

PT. Maxxima Innovative Engineering

- Successfully carried out the installation of electrical simulator systems on 3 units of Corolla Altis, 3 units of Pajero Sport, and 3 units of Hino Dutro vehicles.

Smart Aquaponik Internet of Things System

July 2024

Politeknik Astra

- Successfully handled programming for the microcontroller and developed the application using Android Studio, as well as installed and integrated the electrical components and sensors used in the system.

Kontes Robot Tematik Indonesia (KRTMI)

March 2024 - July 2024

Pusat Prestasi Nasional Kemendikbud

- Successfully led the team in concept planning, component selection, and robot system design, while being technically responsible for the programming, electrical, and mechanical divisions.

ORGANIZATIONAL AND COMMITTEE EXPERIENCE

Head of Department, Academic Potential Development for Mechatronics Student **Feb 2024 - Feb 2025**

Politeknik Astra

- Successfully managed the department responsible for planning and developing the Academic Program for Mechatronics Students at Astra Polytechnic.

Vice Chair, Student Robotics Organization

March 2023 - Feb 2024

Politeknik Astra

- Successfully carried out responsibilities by organizing Robotics Student Activity Unit programs, including Project-Based Learning, research, and robotics education activities.

Chief Organizer, Mechatronics of Astra Polytechnic Festival – National PLC Competition **Sept 2024**

Politeknik Astra

- Successfully organized a national-level event for high school, vocational school, and university students, targeting 100 participants from across the country.

ACHIEVEMENTS

- **Astra Polytechnic Scholarship – PT Astra Bina Ilmu Foundation** **2022 - 2025**

Scholarship recipient at Astra Polytechnic awarded by PT Astra Bina Ilmu Foundation, with full tuition coverage.

- **Finalist Kontes Robot Tematik Indonesia** **2024**

Team Leader of the finalist team in the Indonesian Thematic Robot Contest by Pusat Prestasi Nasional.

- **3rd Winner Competitor National PLC Competition** **2024**

3rd Place Winner - National PLC Competition, Universitas Muhammadiyah Tangerang by OMRON.

- **Finalist Top 5 Fuse National PLC Competition** **2024**

Top 5 Finalist - National PLC Competition, Politeknik Manufaktur Bandung by OMRON.

- **1st Winner Novastech Program Kreativitas Mahasiswa** **2023**

1st Place Winner – Novastech, Student Creativity Program (PKM), organized by Astra Polytechnic.

SOFT SKILLS

- **Language:** English (*Intermediate*), Indonesia (*Native*)
- **Leadership Project** | **Strong Communication Skills** | **Responsible and Reliable** | **Adaptable and Quick to Learn** | **Public Speaking** | **Time Management** | **Teamwork and Collaboration**
